## Physical Education and Sports Report 2023-24

Vidyavardhaka First Grade College's Department of Physical Education consistently promotes and motivates students to actively participate in sports and games. Engaging in regular exercise is crucial for maintaining optimal health. Short-term benefits of exercise include appetite control, mood enhancement, and improved sleep, while long-term benefits encompass a reduced risk of heart disease, stroke, diabetes, dementia, depression, and certain cancers. Playing sports increases our brain acuity and muscle strength. Our sense of self-confidence increases when we play sports frequently. We develop our perseverance, willpower, teamwork, and planning through athletics. Doing sports has a favourable effect on both our physical and mental health. Playing sports builds your personality and teaches you to live life in a better way. Getting involved in such activities teaches good values, ethics, and skills in your life. The person starts to have a positive outlook towards life and can easily deal with obstacles in their life.

The education and wellbeing of children are one of the major concerns of this decade. The technology evolved, it made people lazy and incompetent physically. If the trend keeps going on it will be disastrous for all of us. So, it is important to teach young kids the importance of physical fitness as it is imperative to have courses of physical education in our educational institution. This will prepare the future generation to shoulders on the responsibilities and these quotes of physical education will make them up and running in no time. The mind is as strong as our body if we are unable to take care of our body, the mind will suffer. "Intelligence and skills can only function at the peak of their capacity when the body is healthy and strong."

- John F. Kennedy Don't stop the play because you grow up a little bit, so what the work is more and stress is pounding, just nourish the inner child and do some physical activity. "We don't stop playing because we grow old; we grow old because we stop playing." - George Bernard Shaw
